

CASE STUDY

BIG HIT WITH THE COMMUNITY

*"The new Dampier Town Centre Play Space is a big hit with the community! The play equipment is original, fun and suits the site and targeted age group perfectly. **Proludic were professional and reliable throughout the project, completing the project on time and on budget.** Thank you for a fantastic new playground addition to Dampier."*

Natasha Hombsch,
 Project Officer & Leisure Services

Dampier Town Centre, WA

A real living space for children, the **Climbing Hut** offers various play value inside and outside. Children can of course climb onto the hut, but also hide inside, role play and use the structure as a meeting point.

Located in the Dampier Town Centre, at walking distance to the beach, shops and cafes, this play space caters for younger children between 1 and 8 years old.

The Dampier lifestyle was an important consideration and a source of inspiration for the

Proludic design team. The **Tema Aquatica** unit allows children to make connections with the local area and the aquatic-based industry relevant to Dampier.

A wide variety of play equipment has been included to provide various

opportunities for children to develop their gross motor skills, social development skills and creative thinking.
