

7 steps to having fun safely

Maximum N° Users Recommended for this playground

Children at the same time

TO PROTECT YOURSELVES AND OTHERS

Wash your hands on a regular basis

Cough or sneeze into your sleeve or into a tissue

Use disposable tissues, then throw them in a waste bin

Wear a mask if the minimum recommended distancing of 1.5 metres cannot be observed

2 - Taking Turns

10 mm

In case of intensive use, free up the play equipment after 10 minutes, to allow other children to play on it. Focus play on the equipment which is not in use. Encourage children to be patient and take turns.

3 - Traffic Flow

Encourage children to use collective play equipment clock-wise.

4 - Social Distancing

Children must avoid playing close together. It is important that they observe the minimum recommended social distancing of 1.5 m.

5 - Hygiene Practices

Have disinfectant products with you, to disinfect children's hands after each turn on play equipment.

6 - Public facilities

Be aware that nearby public toilets and water fountains might be closed.

7 - Collective Sports

Ball-games and all other games involving physical contact should be discouraged. Do not lend or borrow toys or personal effects.
